After hours:	083 227 6976

# BREEDER RIVER MARATHON - DAY ONE

## ROBERTSON TO BONNIEVALE – 37km

- The start is at McGregor Bridge, Robertson – see notice for your race start time. You must also make sure that you get to listen to the safety briefing before the race.
- After the start go carefully under the bridge and do not get squeezed on the bridge pillars
- At the left-right option after the bridge stay right
- Another two minutes down, look out for an overhanging tree and branches on the left hand bank as the river sweeps right
- At the 10km mark you come to Kekkle en Kraai weir. Shoot on the left and head right after the drop.
- At 16km you arrive at Sliding Weir on a gentle right bend. Shoot or portaged generally on the left hand side. [listen to safety briefing on race day]
- 100m below the weir is the causeway which will be shot or portaged left or right hand side. [listen to safety briefing on race day]  
If you portage, the right hand side is better. Another 400m below the causeway after a left turn and a rapid, you get to Bollard Bridge. Portage on the left where marshals indicate or paddle over on a high water level [listen to safety briefing on race day]
- After 18.5km you come to the RED IRON BRIDGE the gradient increases so will be quite rocky on a low level. Go under it keeping left. [this is the day one half way mark]
- The Secunda Weir is at 19.5km and is a concrete shoot in the center of the river. Be warned, at lower levels it can be a BIG drop, so make sure you are stable in your boat and tackle it with a bit of speed [splashie on]. Shoot left of center. Portage on the right if unsure.
- About 3km below Secunda Weir the river goes hard left and there is a sneak left that only works in very high water, you decide!!!
- 5 km before the end, you come to the Jonkeer Bridge [also called broken bridge or low level bridge]. You will see a road and farmhouses up on the right hand bank just before you get to the bridge. Shoot under on river left on a low level, aim for right hand pillar as the water will push you left. [listen to safety briefing on race day]. Paddle over on a high level.
- The last low level bridge is just two kilometers from the finish and can be portaged on left hand side on a low level. Paddle over on the right on a high level.
- The finish is at 37km Riggton Farm on the left bank on a gentle RH bend. Time your sprint to the finish carefully!

# BREEDER RIVER MARATHON - DAY TWO

## BONNIEVALE TO SWELLENDAM – 34km

- The race starts in the pool at Riggton Farm.
- Within the first 2km there is a straight or right option. Straight is faster if the channel is clear.
- 3km into race you approach Blue Rock. It is made up of two ledges, the first on the left and the second on the right. Carefully pick your way through and mind the rocks. Portaging on the left is advised on a very low level
- Sweeping corners and long pools make up the balance of the river before Drew Bridge, which is the half way marker.
- On a low river you can go under Drew Bridge or portage on the left. If the bridge is a compulsory portage, you may only portage on the side as advised at safety briefing. It is critical that you are prepared for the portage and move away from the portage area quickly.
- Please also note that Drew Bridge is a public road.
- About 2km below Drew Bridge after the dog leg bend, be aware of a tree that has fallen and is in the center of the river. There is ample space on the left or right to get through, give each other room.
- The river sweeps gently left and then slightly right before you get to the Waterfall Rapid at 7.1km. Look for the palmiet islands in the river. Go initially right and then cut back left to line-up and shoot the rapid. Remember it is a double drop so go in with lots of speed and do not brace too early. The Chicken Run on river right is NOT an option. There are 2 massive tree trunks blocking the exit. This may be a compulsory portage on a low level.
- After the Waterfall look for more palmiet islands – go between the biggest of the two and then go hard right. Straight looks tempting but it is slower than right.
- When you come out of the right hand channel there is a 3km flat section before you can take a LH sneak. Depending on the level, there may be tree blocks in play. Rather stay right on high level.
- Next is a long straight and you pass a BIG gum tree in the middle of the river - carry on straight and follow the main flow. You then go slightly left down a narrow channel.
- The finish is not far now, look out for the confluence of the Riversonderend and the Breede Rivers. The race finishes in the pool below, but be careful not to spin out as you enter this final pool. Swimming to the finish happens....!
- If you make it here, well done on completing the Breede River Canoe Marathon. Time to kick back relax and be thankful for the privilege of been able to paddle this pristine river!

[www.kambati.co.za](http://www.kambati.co.za)

**day one – START AT McGREGOR BRIDGE**

**THEMBA'S COFFEE STATION**

**Themba will be selling Cappachino's at the race start on Saturday and Sunday morning.**

**day two - FINISH AT KAM'BATI**

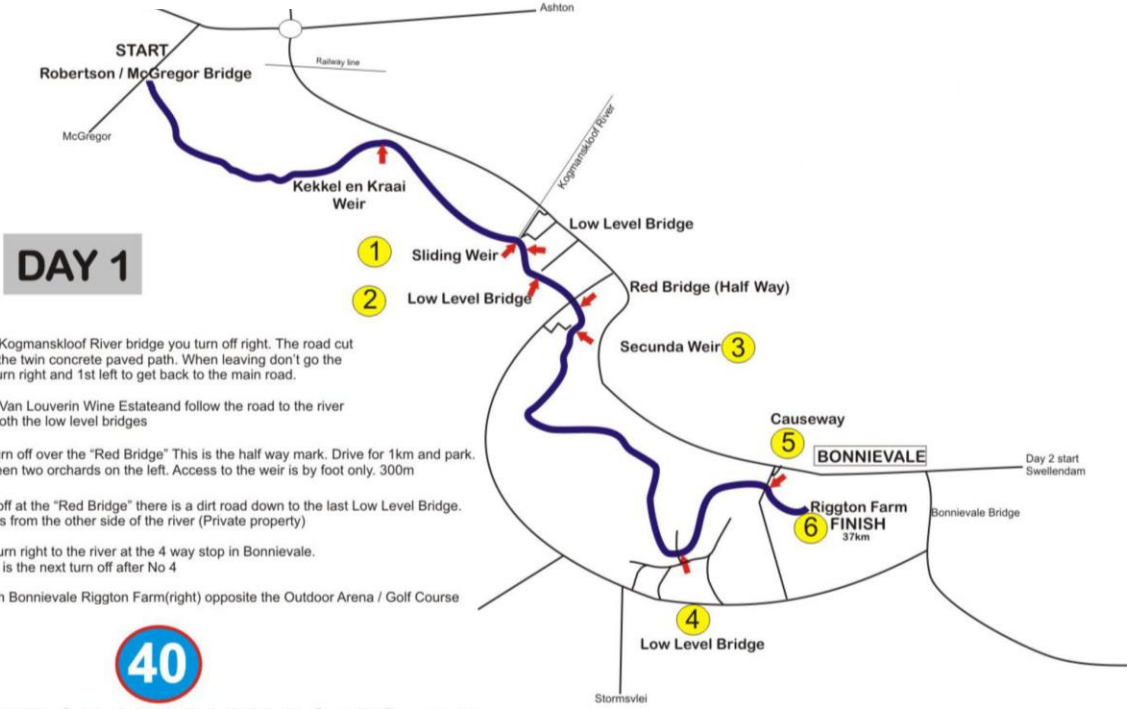

**The following will be on SALE at the finish on SUNDAY:**

- **Pizzas**
- **Cash bar**

# BY RIVER

# BY ROAD

## DAY 1

- 1 Immediately after the Kogmansloof River bridge you turn off right. The road cut back on itself. Follow the twin concrete paved path. When leaving don't go the same way back but turn right and 1st left to get back to the main road.
- 2 Take the 1st turn into Van Louverin Wine Estate and follow the road to the river. Here you can get to both the low level bridges
- 3 Take the Stormsvlei turn off over the "Red Bridge" This is the half way mark. Drive for 1km and park. There is a path between two orchards on the left. Access to the weir is by foot only. 300m
- 4 13.2km after turning off at the "Red Bridge" there is a dirt road down to the last Low Level Bridge. Do not use the access from the other side of the river (Private property)
- 5 From the main road turn right to the river at the 4 way stop in Bonnievale. From the other side it is the next turn off after No 4
- 6 After the 4 way stop in Bonnievale Rignton Farm (right) opposite the Outdoor Arena / Golf Course

**40**

**SPEED LIMIT ON ALL FARM ROADS pls!!**

## DAY 2

**40**

**SPEED LIMIT ON ALL FARM ROADS pls!!**

# WITH GRATITUDE TO OUR RACE PARTNERS
